Dear Valued Sales Agent,

Thank you for your commitment to your clients and for being a valued partner to Intermountain Health. Your dedication truly makes a difference. As we approach Medicare’s Annual Enrollment Period—our busiest time of year—we want to ensure you have everything you need to make your job easier.

We are committed to investing in our community to support our mission of *Helping People Live the Healthiest Lives Possible*®. Last year, we announced a new 90,000-square-foot medical facility at 8350 West Badura Avenue in Las Vegas, set to open in 2026. We also unveiled plans for Nevada’s first stand-alone children’s hospital—an initiative that will deliver high-quality, coordinated pediatric care and create over 1,300 new jobs across the valley.

This toolkit was developed in close collaboration with our sales agents and brokers to ensure you have the most relevant and effective materials for your client meetings. While it reflects the most up-to-date information as of August 2025, we encourage you to visit our online Broker Resource Center for the latest updates.

As you prepare for AEP, please don’t hesitate to reach out to our broker relations team for assistance with any challenges that may arise. We are committed to ensuring you have an excellent experience working with our organization.

Thank you for your continued dedication to our community and for helping your clients navigate their healthcare options. We value your partnership and look forward to supporting you during this important time.

Scheduling New Patient Appointments during AEP

We encourage all agents to assist their clients in scheduling their new patient appointment at the time of enrollment. Our local Patient Services Center is ready to schedule these appointments, even if the member hasn't received their insurance card or ID number yet. If the member ID is not available, simply ask the representative to enter zeros in that field. Once your client receives their insurance card, they can call back to update their information.

Behavioral Health Treatment

Integrated care for body and mind.

You know the team

Your provider, who knows you, your family, and your health history, leads your mental health care plan. They will recruit other caregivers to join your team as needed. The team knows you. They respect you, listen to you, and communicate well to help you improve your whole health.

Feel the difference

Mental health is a fundamental aspect of your well-being that deserves attention and care just as much as your physical body. The goal of integrating mental health services is to improve this core component of your health so you can live your healthiest life.

Everyone can benefit from mental health services at some point

Work problems, illnesses, relationships, and family issues – we all face these in life. They stress our ability to cope.

House Calls

We'll be there for you.

If you are unwell and unable to travel to your senior primary care clinic to receive care, your provider may refer you to our House Calls service.

How does the House Calls service work?

1. If your provider refers you to our House Calls service, a member of the House Calls team will call you within two business days to schedule your first in-home appointment.
2. A dedicated nurse practitioner will learn your medical history, lifestyle, goals, and care plan, and lead your in-home care in close coordination with your primary care provider. Other specialists will be added to your care team as needed.
3. In-home visits will be conducted at a rate determined by you and your provider in order to maximize your health, while maintaining your privacy and safety.
4. When you are healthy enough to do so, you will return to your primary care provider for regular clinic visits.

Physical Medicine

To keep you whole and healthy.

If you have a condition that affects your musculoskeletal system, such as a bone, joint, muscle, or tendon disorder, your primary care provider may refer you to the Intermountain physical medicine team for evaluation, diagnosis, and treatment. The Intermountain physical medicine team focuses on life improvement by means of exercise and self-care whenever possible to help you recover strength and the ability to move your muscles and joints.

Conditions we treat:

The team works with you and your primary care provider to assess your condition, plan for current and future medical needs, coordinate your care, and connect you to community resources for medical, behavioral, and social services that can improve your well-being and quality of life.
