

Our Residents

Intermountain Medical Center Transitional Year Program

First Year Residents

Malorie R. Carter, MD

Malorie was born and raised in Long Island, New York before relocating to Wesley Chapel, North Carolina where she completed high school. Growing up, she frequently visited Utah to spend time with family and met her future husband there during one summer at age 12. Malorie moved to Utah for her undergraduate education at the University of Utah where she studied biology and later studied medicine. Malorie enjoys spending time with her husband, three-year-old daughter, and dog; playing the piano; hiking, walking, and snowboarding in Utah's mountains; or relaxing at home with a good snack and a movie. After her intern year at IMC, Malorie will continue her training at the University of Utah in diagnostic radiology.

Brock T. Coleman, MD

Brock grew up North of Salt Lake City in Layton, Utah. After high school, he spent two years as a missionary in Kyūshū and the southern islands of Japan, where he learned Japanese. He then earned a B.S. in Chemistry through the Honors College at the University of Utah while gaining his first healthcare experience as a vaccinator in correctional facilities and homeless shelters during the pandemic. Brock went on to attend medical school at the Spencer Fox Eccles School of Medicine at the University of Utah. In his free time, he enjoys fly fishing, weightlifting, Japanese cooking, and spending time at parks and libraries with his wife, Lindsey, and daughter, Violet. Upon completing his intern year at Intermountain Medical Center, he will continue his training in Interventional Radiology at the Medical University of South Carolina.

Helena (Helly) G. Heister, MD

Helly was born and raised in Colorado, where she developed a love for all things mountains, especially skiing, trail running, and camping. Unable to ever choose between being a left-brained or right-brained person, she attended University of Colorado Boulder for undergrad where she studied both Integrative Physiology and Architecture. Along the path to becoming a physician, she worked in healthcare revenue cycle management consulting in California for a number of years, and also completed a Masters in Biomedical Sciences. She loves coming home to the world's most supportive husband, two of the world's best cats, and a pretty okay dog. After her intern year at Intermountain Health, she will continue her training at the University of Utah in Anesthesiology.

Annabelle Huntsman, MD

Annabelle grew up in Salt Lake City, Utah. She attended the University of Utah where she received her B.S. in Psychology and completed her medical education at the University of Utah School of Medicine. Outside of medicine, Annabelle enjoys Pilates, reading, skiing, hiking and trying new workout classes! After completing her intern year at Intermountain, Annabelle is excited to continue her training in Dermatology at the University of Utah.

Angela N. Hussain, MD

Hi, my name is Angela! I grew up in Layton, Utah and am very excited to return home for my transition year and be close to family, friends, and the mountains again. I moved to Baltimore to go to Johns Hopkins University for undergrad where I studied Molecular & Cellular Biology. After graduating, I moved to Chicago for medical school at the University of Illinois College of Medicine. I have a deep love for the outdoors and fitness. In my free time you can usually catch me hiking, on a run, or at a workout class. I am also a huge foodie. I enjoy cooking and baking for friends, and hosting dinner parties. I met my fiancé in medical school and after my transition year here at Intermountain, I will be joining him and returning to Baltimore for my Diagnostic Radiology residency at Johns Hopkins.

Lily Johnson, MD

Lily grew up in Honolulu and graduated from Brigham Young University, where she majored in neuroscience, spent her summers working at a camp in central Utah, and skied as much as possible during the winters. She then returned home for medical school at the University of Hawai'i John A. Burns School of Medicine, where she loved spending time with family and friends, hiking, surfing, doing yoga, and baking. She's excited to be back in Utah for her intern year before continuing her dermatology training at the University of Utah!!

Adam Katz, MD

Adam grew up in Casper, Wyoming. After serving as a missionary in Phoenix, Arizona for two years, he graduated from the University of Utah with a B.S. in Accounting. He completed a Master's in Health Science at Johns Hopkins University before returning back to Salt Lake City to complete medical school at the University of Utah. In his free time, Adam enjoys watching college sports with his wife, building Lego with his four-year-old daughter or exploring the backyard with his six-month-old son. After his intern year at Intermountain Medical Center, Adam will continue his training in interventional radiology at Mayo Clinic in Rochester, Minnesota.

Anne (Annie) E. Kendell, MD

Annie was born and raised in Salt Lake City, Utah. She received both her bachelor's degree in Biology and her medical degree from the University of Utah. Outside of medicine, Annie enjoys playing tennis, Pilates, hiking, reading, exploring new restaurants, and traveling. Following her intern year, she will continue her training as a radiology resident at the University of Michigan.

Jacob S. Luddington, MD

Jacob grew up in Kaysville, Utah. After serving a two-year mission in Everett, Washington, he went to Brigham Young University to study biochemistry where he did three years of research on therapeutics for limb girdle muscular dystrophy. He completed medical school at UT Health San Antonio, where he became interested in anesthesiology. He is excited to return to Utah to be near family and the amazing mountain west area. Outside of work, he enjoys spending time with his wife and new baby, cycling, caving, fly fishing, and knitting Nordic sweaters. After his intern year at IMC, he will continue his training in anesthesiology at the University of Utah.

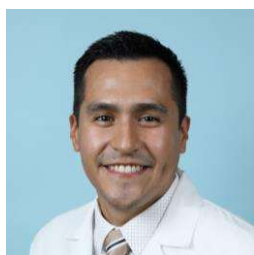

Elizabeth (Liz) L. Roux, MD

Liz grew up in sunny southwest Florida amid teeming estuaries, swamps, and white sand beaches. She earned a B.A. in Integrative Biology, as well as a love for trail running, backpacking, and writing poetry, while at Harvard College. She spent two postgraduate years in southern Utah working as a wilderness therapy field guide, then returned to Harvard for medical school. Outside of medicine, Liz loves to run, bike, climb, ski, scuba dive, write poetry, carve spoons, and most other activities especially if there's sunshine, fresh air, and good company. Upon completion of her intern year at Intermountain Medical Center, she will continue her training at the University of Utah in Diagnostic Radiology.

M. Chloe Slator, MD

Chloe grew up in Taos, New Mexico and received her B.S. in Biochemistry and Psychology from the University of New Mexico. She completed medical school at the University of New Mexico School of Medicine. Outside of medicine, Chloe enjoys skiing, hiking, backpacking, and spending quality time with her partner and dog. She is also an avid foodie and loves exploring new restaurants. After her intern year at IMC, Chloe will continue her training at the University of Utah in Anesthesiology.

Boris M. Tirado, MD

Boris Tirado was born and raised in Trujillo, Peru. After high school, he served a two-year mission in Rosario, Argentina, where he formed close friendships with missionaries from Utah who encouraged him to immigrate to the United States. He began his studies at Ensign College in Salt Lake City and worked as a medical assistant in the University of Utah Internal Medicine Department, an experience that sparked his passion for medicine and patient care. He went on to earn a B.S. in Psychology from the University of Utah before completing his M.D. at the University of Utah School of Medicine. Outside of medicine, Boris enjoys spending time with his wife, Jessica, and their three young daughters. He is an avid soccer fan who also enjoys running, college football, cooking, and playing with his children. Having found a second home in Utah, he is excited to continue his training in Anesthesiology at the University of Utah following his intern year at Intermountain Medical Center.

Vincent (Vinny) W. Vigorita, MD

Vinny grew up in Long Island, NY, and attended Occidental College in California where he studied Biology. Following his undergraduate education, he worked as an Emergency Medical Technician for six years across three different states. In 2016, he moved to Utah and quickly put down roots in the Beehive State working as a Ski Patroller at Deer Valley Resort, Critical Care Technician at Park City Hospital and completing medical school at the University of Utah. Outside of medicine, Vinny enjoys spending time with his fiancé, Victoria - skiing, mountain biking, camping, playing pickleball, and pursuing their newest hobby, curling. Following his intern year at IMC, Vinny is thrilled to continue his training with the University of Utah Department of Anesthesiology.
