Saint Joseph Hospital Internal Medicine Residency Curriculum

Board Certification

One of the goals of the Internal Medicine Residency program is to help residents successfully complete the certifying examination for the American Board of Internal Medicine. Residents in our program have an excellent track record of passing the ABIM board exam.

Fellowship Placement

Residents graduating from our training program have pursued a number of sub-specialty careers. The Internal Medicine Residency Program effectively prepares physicians for any fellowship program. Faculty mentors aid residents in their candidacy applying for fellowship match, with many receiving their first or second choice.

The following is a list of fellowships obtained by graduating residents over the past several years:

- 2026 Cardiology, Aurora Health Care, Milwaukee
- 2026 Cardiology, Creighton University
- 2026 Pulm/Critical Care, University of Utah
- 2026 Pulm/Critical Care, UCHealth Parkview Medical Center
- 2026 Rheumatology, Beth Israel Deaconess Medical Center
- 2026 Rheumatology, University of Colorado
- 2025 Cardiology, University of Missouri
- 2024 Pulm/Critical Care, Maine Medicine Center
- 2024 Pulm/Critical Care, University of Iowa
- 2024 Hematology and Oncology, University of Southern California
- 2024 Allergy and Immunology, National Jewish Health
- 2023 Hematology and Oncology, University of Southern California
- 2023 Pulm/Critical Care, University of Iowa

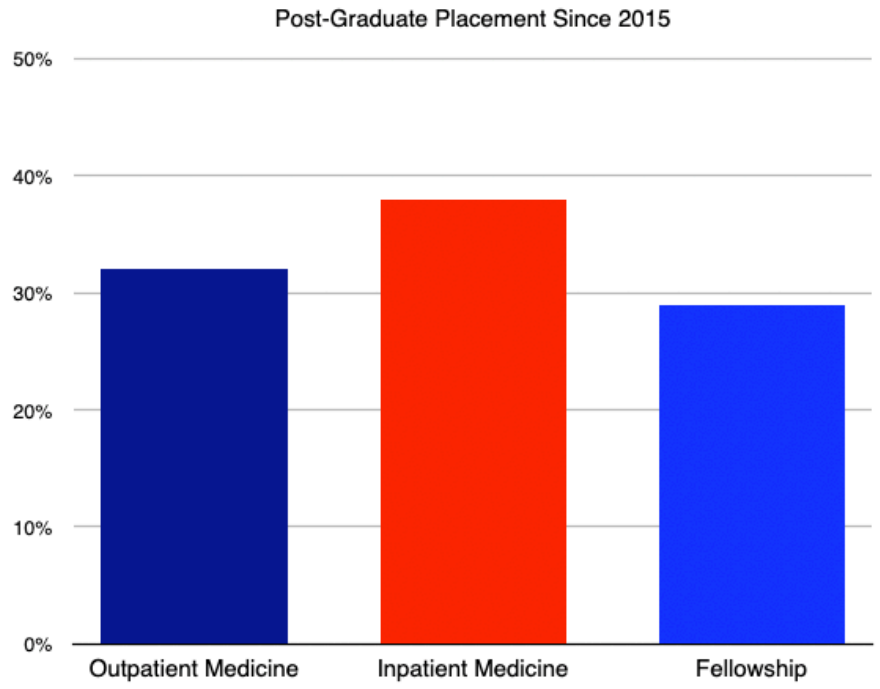
- 2016 Allergy and Immunology, University of Colorado/National Jewish Health
- 2016 Infectious Diseases, University of Utah
- 2015 Infectious Diseases, University of Colorado
- 2015 Endocrine, University of Colorado

Future Career Opportunities


Graduates from the Internal Medicine Program have their choice of hospital-based practice, outpatient practice, traditional practice, or rural practice. Residents frequently stay in the Denver area, but also relocate around the state of Colorado and across the United States. The Internal Medicine Faculty advises residents through our mentoring program to choose and succeed in a practice that fits them personally.
