

Basic Life Support Certification

Many positions within Intermountain Health require current, valid BLS Certification for the **healthcare provider** or **professional rescuer**.

Qualifying certifications may be obtained from any of the organizations listed below. Many hospitals and fire departments also offer BLS classes; however, you must ensure that their certifications are issued by one of the approved agencies and meet the Intermountain Clinical Standard.

Approved Agency	Intermountain Clinical Standard	Agency Website
American Heart Association	BLS Provider	https://cpr.heart.org
American Red Cross	Basic Life Support or CPR for the Professional Rescuer	https://www.redcross.org/take-a-class/bls
National Safety Council (Utah Safety Council)	Basic Life Support for Health and Professional Rescuers (Group instruction only)	http://utahsafetycouncil.org
Military Training Network	BLS Health Care Provider	http://www.usuhs.mil/mtn
Emergency Care and Safety Institute	Professional Rescuer CPR or Health Provider CPR	http://www.ecsinstitute.org
American Safety & Health Institute	CPR Pro for the Professional Rescuer	http://emergencycare.hsi.com
